

AI-Related Legislation From Select Countries, 2022

Source: AI Index, 2022 | Table: 2023 AI Index Report

Country	Bill Name	Description
Kyrgyz Republic	About the Creative Industries Park	This law determines the legal status, management, and operation procedures of the Creative Industries Park, established to accelerate the development of creative industries, including artificial intelligence.
Latvia	Amendments to the National Security Law	A provision of this act establishes restrictions on commercial companies, associations, and foundations important for national security, including a commercial company that develops artificial intelligence.
Philippines	Second Congressional Commission on Education (EDCOM II) Act	A provision of this act creates a congressional commission to review, assess, and evaluate the state of Philippine education; to recommend innovative and targeted policy reforms in education; and to appropriate funds. The act calls for reforms to meet the new challenges to education caused by the Fourth Industrial Revolution characterized, in part, by the rapid development of artificial intelligence.
Spain	Right to equal treatment and non-discrimination	A provision of this act establishes that artificial intelligence algorithms involved in public administrations’ decision-making take into account bias-minimization criteria, transparency, and accountability, whenever technically feasible.
United States	AI Training Act	This bill requires the Office of Management and Budget to establish or otherwise provide an AI training program for the acquisition workforce of executive agencies (e.g., those responsible for program management or logistics), with exceptions. The purpose of the program is to ensure that the workforce has knowledge of the capabilities and risks associated with AI.
