Earn an industry-recognized Master's Certificate

Get hands-on experience with real-life industry projects

## About Simplilearn

---

Simplilearn is the world's #1 online bootcamp provider that enables learners through rigorous and highly specialized training. We focus on emerging technologies and processes that are transforming the digital world, at a fraction of the cost and time as traditional approaches. Over one million professionals and 2000 corporate training organizations have harnessed our award-winning programs to achieve their career and business goals.

# Program Outcomes

---

- ✔ Mastery of modern project management tools such as work-breakdown structure, resource allocation, Gantt charts, mathematical project-scheduling models, project-cost estimating, cost management, and engineering economics
- ✔ Proficiency in scrum terminologies and their applications
- ✔ Ability to facilitate daily scrums, user stories, sprint planning, and sprint reviews
- ✔ Production of different scrum artifacts, including product backlog, sprint backlog, finished deliverables, and being able to truly define the word “done”
- ✔ Be a key stakeholder in leading and implementing Lean Six Sigma projects in your organization
- ✔ Be able to identify an improvement project in the Define phase
- ✔ Explain how to measure processes and product in the Measure phase
- ✔ Perform data analysis and hypothesis testing in the Analyze phase

## Who Should Enroll in this Program?

---

Project managers whose credentials are up for renewal should subscribe to this PMP® Plus bundle, which will also help you gain additional skills.

## How Do I Earn My 60 PDUs?

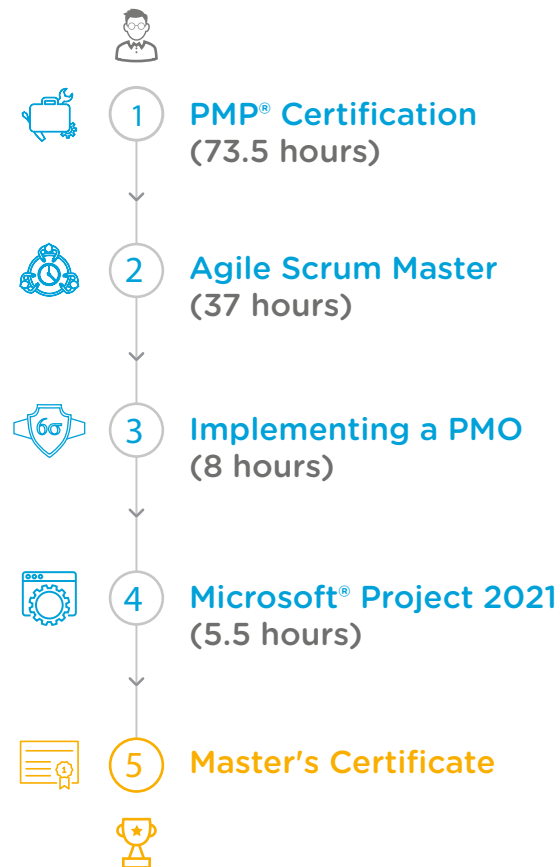

Upon completion of the minimum requirements, you can go to the PMI site and claim the PDUs.

This is the list of courses and the number of PDUs available:

S.no	Course	Training Mode	No. of PDU's
1	PMP®	LVC	35
2	Agile Scrum Master	LVC	24
3	Lean Six Sigma Green Belt	LVC	35
4	Microsoft Project	OSL	16
5	PMI-RMP®	OSL	32
6	Implementing a PMO	LVC	8

# Learning Path

---

# PMP® Certification

---

This course covers new trends, emerging practices, and the core competencies required of a project management professional—placing a greater emphasis on strategic and business knowledge. It also includes a section on the role of the project manager in both large and small companies.

## Key Learning Objectives

- ✓ Modern project management tools such as work breakdown structure, resource allocation, Gantt charts, mathematical project scheduling models, project cost estimating, cost management, and engineering economics
- ✓ Delivering projects on time and on budget
- ✓ Cultivating the people skills, trust, and leadership necessary to meet project requirements

## Course Curriculum

- ✓ Lesson 01 - Introduction
- ✓ Lesson 02 - Create a High Performance Team
- ✓ Lesson 03 - Start the work
- ✓ Lesson 04 - Do the work
- ✓ Lesson 05 - Keep the Team on Track
- ✓ Lesson 06 - Keep the business environment in mind

# Agile Scrum Master (ASM®) Certification Training

---

This Agile Scrum Master (ASM) certification course is your gateway to learning the most popular agile project management methodology. By taking this online certification course, you will be positioned to become a champion of agile adoption in your organization, maximizing your results.

## Key Learning Objectives

- ✓ Implement a distributed scrum of teams spread across the world
- ✓ Grow into a ScrumMaster role within any organization
- ✓ Set up and handle projects on a JIRA cloud site
- ✓ Pass the EXIN Agile ScrumMaster exam on your first attempt
- ✓ Apply best practices for getting the maximum value from scrum methodology

## Course Curriculum

- ✓ Lesson 01 - Course Introduction
- ✓ Lesson 02 - Agile way of thinking
- ✓ Lesson 03 - Scrum Roles, Events and Artifacts
- ✓ Lesson 04 - Agile Estimating, Planning, Monitoring and Control
- ✓ Lesson 05 - Other Methods and Frameworks
- ✓ Lesson 06 - Complex Projects
- ✓ Lesson 07 - Adopting Agile

# Implementing a PMO

---

This course will help you establish a PMO to capture and propagate the best practices in project management. Whether you want to increase the number of projects you can run, continuously monitor whether the projects are on track with the strategic objectives of your organization, or transition from “crisis to control” philosophy—knowing how to implement PMO gives you an unprecedented advantage over your competitors who are only playing with project management in isolation.

## Key Learning Objectives

- ✓ Learn to enable project managers and leaders to deliver value
- ✓ Decrease failure in a project
- ✓ Learn to manage project cost, scope and schedule
- ✓ Strategically align projects and objectives of the enterprise
- ✓ Improve client satisfaction with project delivery

## Course Curriculum

- ✓ Lesson 01 - Course Introduction
- ✓ Lesson 02 - Introduction to PMO
- ✓ Lesson 03 - Inside a PMO
- ✓ Lesson 04 - Establishing a PMO
- ✓ Lesson 05 - Running the PMO
- ✓ Lesson 06 - PMO: Next Steps

# Microsoft® Project 2021

---

This Microsoft Project Certification course will help you perfect end-to-end project management skills and master the industry's most popular project management tool. With this MS Project training, you'll receive a comprehensive overview of customized reporting, shared resource pools, setting up custom tables, recurring tables, WBS code — all ensuring your ability to manage complex projects from start to finish.

## Key Learning Objectives

- ✓ Manage projects from start to finish using the Microsoft® Project 2021 application
- ✓ Learn to automate custom fields and how to import and export the project data
- ✓ Track the project's progress using key features
- ✓ Share project information and create reports
- ✓ Manage tracking cost and anticipate risk

# Electives

---

## Lean Six Sigma Green Belt

Learn to develop your organizational projects with this Lean Six Sigma Green Belt certification program. Aligned with the IASSC exam, this six sigma certification integrates lean and the DMAIC methodology with case studies to provide the skills required to grow an organization

## PMI-RMP

Master the processes of risk management, the structured and objective approach to addressing uncertainty in projects. Learn how to conduct risk planning, identification and analysis, and control both known and unknown risks in projects.

## PMI-PgMP

Hone your skills in managing multiple projects and aligning program activities with business goals without compromising on speed, quality and efficiency. Learn PMI's five program management performance domains, including program strategy alignment, lifecycle management, stakeholder engagement, benefits management and governance.

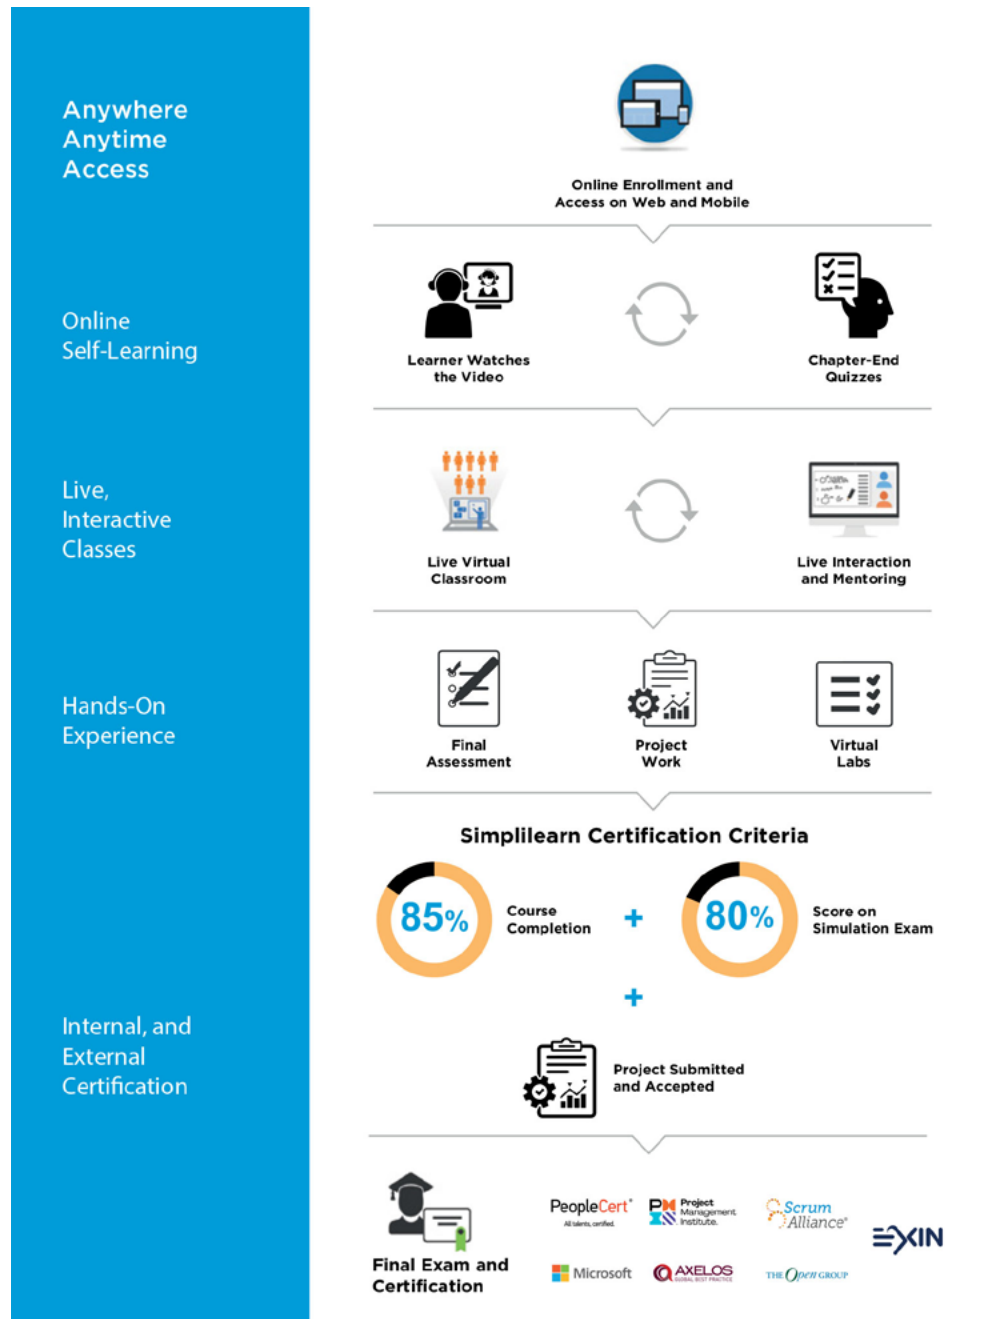

# Certificates

Upon completion of this Master's Program, you will also receive an industry-recognized Master's Certificate from Simplilearn.

# Classroom-Level Immersion: Delivered Digitally

# Customer Reviews

---

## Vidyut N Joshi

Simplilearn is the best platform to learn and implement the knowledge in the industry you work. I am an official member of Simplilearn for one year now, and so far, I got to learn many courses. The Live Class is the USP of Simplilearn. I will keep learning with Simplilearn. Thank You!

## Giuseppe Giuffrida

The best part about the course is its flexibility and allowing participants to learn at their own pace. A great learning experience, overall!

## Mike Casey

Simplilearn has been great. The live courses for the PMP exam were well organized and easy to connect to. Their customer support has been excellent. They've helped out all along.

## Arbind Joseph Christy

The instructor was very knowledgeable, and the communication was crisp and compelling.

# Corporate Training

## Top clients we work with:

## Features of Corporate Training:

Tailored learning solutions

Flexible pricing options

Enterprise-grade learning management system (LMS)

Enterprise dashboards for individuals and teams

24X7 learner assistance and support
